

ATTENTION VETERAN SUPPORTERS!

A five gallon water bottle has been placed in the plant 5 cafeteria asking for unwanted pennies. This change will be used to purchase toiletry items for veterans in the V.A. Hospitals that need a little help. The response has been better than I expected. I will keep a running tally posted on the bottle so that donors can see what has been collected and also will let everyone know where and when their donations are going. Please spread the word to your fellow co-workers. If you are interested in starting the same type of donation station at your facility, please be at the June 27th regular membership meeting. We will have a Veteran's call right after the meeting adjourns.

Thank you for your support!

Paul Brown
Veteran's Committee Chairman
